

SAVE ON ENERGY BUSINESS REFRIGERATION INCENTIVES

SAVE ON REFRIGERATION, \$2500 AVAILABLE IN FREE UPGRADES!

WHAT?

A turn-key solution for your commercial refrigeration needs. Your electricity utility provider provides a free assessment and free benchmarking of your facility to recommend the right products to improve maintenance and lower electricity costs. Up to \$2500 is available to upgrade your refrigeration system. This includes your refrigeration's motors, insulation, anti-sweat controls, lighting and coil cleaning.

WHO?

This program is a great fit for restaurants, bakeries, grocery stores, convenience stores and florists. Eligible participants in the program are non-residential electricity customers that utilize commercial product refrigeration and have an average peak demand of less than 250 kW.

HOW?

1. Contact your local distribution company (LDC)/ electricity utility provider;
2. Your LDC will help determine your eligibility and arrange an appointment to get started;
3. Up to \$2500 provided in free refrigeration upgrades;
4. **Enjoy and maintain your new equipment!**
